

GENERAL MANAGER'S REPORT

Date submitted: March 21, 2024

Radio System Upgrade

The new radios are installed in the buses and fleet vehicles. A key member of the Tait installation team from Mexico was delayed due to changes in Canadian Visa requirements for Mexican citizens. As a result, the installation of equipment at the towers and switch to the new system has been rescheduled for April 6th.

Service Interruptions

Due to weather and road conditions, there was no service on February 14th, 15th and 18th.
