

## GENERAL MANAGER'S REPORT

Date submitted: August 22, 2024

### Community Bus

A step has been ordered to be installed before the bus goes into service. The bus is higher than the previous one and is a safety concern for customers boarding and alighting. Once the step is received and installed, the bus will be ready for service.

### RFP – Metrobus Renovations for Electrification

The RFP has been released for a consultant to complete design of building renovations required for the transition to zero emission buses.
